WARNING

Do not use thread lockers such as Loctite on Hitec servos that have the Karbonite gears. Using the thread-locking compound on plastic parts will cause the part to fail. These compounds are for metal to metal only.

MARCH MEETING

A motion was made to build a new freq. board. The old one is good for holding bird @#\$\$\$. We discussed having the Christmas party catered by Rose Hulman. Mike Perkins won model of the month with a twin rudder three-channel own design model. He donated the prize money back to the club. Crash of the month was won by Don -----. I can't print his name or his wife won't let him play with us anymore. An unusual model was displayed this month. It was a target drone designed to simulate a Mig 27. It is made entirely of foam and was huge. In spite of its size it was powered by a .65 engine. Steve Buck won the \$10.00 drawing and donated it back to the club. Wayne Grabbe won two items from the box and Ray won one item.

FINAL NEWSLETTER

Yes this is it. This is the last one. I can't take it anymore. There will be no more, forever. I can't keep doing this. It had to happen sooner or later and the time is now. Don't whine and cry or pound your fists because it will not matter. You will not receive any more newsletters unless you **pay your dues.** The club cannot afford to send newsletters to people who are not members.

SWAP MEET

The turn out for the swap meet this year was very low. The club did manage to clear about \$220.00. Kenny V won the radio and Jack Johnston won \$25.00. Thanks to everyone that helped.
